

1. Install VS Code and enable the Add to PATH option during installation.

2. Install the C/C++ extension by Microsoft from the VS Code Extensions Marketplace.

3. Add C:\msys64\ucrt64\bin to the Windows PATH environment variable and verify it using gcc --version and g++ --version.

```
Windows PowerShell

```

4. Create hello.c in VS Code, compile it using gcc hello.c -o hello.exe, and run it using .\hello.exe.

```
File Edit Selection View Go Run Terminal Help
new3.py new4.java index.html new.c
C new.c > main()
You, 6 days ago | 1 author (You)
1 #include <stdio.h>
2 int main()
3 {
4     printf("hello world\n");
5     return 0;
6 }
7

D:\college sem2\pbuild\activity 2.pdf
D:\college sem2\pbuild\activity 2.pdf ("hello world");
You, 6 days ago * the pbuild is added

Problems Output Terminal Ports
PS D:\college sem2\pbuild> gcc new.c
PS D:\college sem2\pbuild> ./a.exe
hello world
PS D:\college sem2\pbuild>
```

The screenshot shows the Visual Studio Code interface. The Explorer sidebar on the left lists files in a project named 'pbuild', including 'a.exe', 'activity 1.pdf', 'activity 2.pdf', 'index.html', 'new.c', 'new2.c++', 'new3.py', 'new4.java', 'p.docx', 'README.md', and 'Updated 3rd Semester Student List - Class...'. The main editor window displays the code in 'new2.c++':

```
1 You, 6 days ago | 1 author (You)
2 #include <iostream>
3 using namespace std;
4 int main()
5 {
6     cout << "hello world this is c++"<<endl;
7     int a = 10;
8     cout << "value of a is: " << a<<endl;
9     int b;
10    cin>>b;
11    cout << "value of b is: " << b<<endl;
12    return 0;
13 }
```

The bottom panel shows the 'Terminal' tab with the command prompt output:

```
PS D:\college sem2\pbuild> ./a.exe
hello world this is c++
value of a is: 10
```

5. GITHUB ACCOUNT

The screenshot shows a GitHub profile page for user 'malikrehanmulla1048'. The profile includes a circular profile picture of a man in a suit, a bio stating 'I am a BTech CSE student of the Reva University India. Exploring full-stack development, data science, and AI/ML.', and a list of achievements. The 'About Me' section lists:

- Computer Science / Engineering student from Bengaluru, Karnataka, India.
- Actively building FastAPI backend systems and Flutter mobile applications.
- Working on AI/ML projects (especially computer vision and deepfake detection).
- Built a 2D graphics editor in C and enjoy low-level programming & data structures.

The page also shows '5 followers' and '6 following'.
